About MMI

PT Marata Mars Indotama (MMI) is a local Indonesian corporate group, which is slowly and steadily developing into a business group with international standards which operates in the fields of trading and special production of metal and steel engineering, construction, agribusiness, general trading and management consulting. Since starting its business until now, **MMI** has always prioritized the principle of professionalism for partner success, with the motto "***We stand beside your business***".

MMI Group classifies itself as a leading group that significantly contributes to the development of the Indonesian economy which focuses on development, construction, supply, energy and management. We believe that achieving its mission to become a market leader is always based on discipline and professionalism in all aspects, both in its core business and always optimizing resources (financial and human) to achieve prosperity for shareholders and employees as well as its contribution to the growth of the Indonesian economy.

MMI Group chose Jakarta as its activity base and head office but already has a network of representative offices in several large cities in Indonesia such as Semarang, Urabaya and Pekanbaru.
